

Greening Snohomish County Conference Program
Concurrent Sessions
Session Three 1:30 – 2:45 pm

Remodeling Green: Behind the Walls

Dylan Chalk, Orca Inspection Services, www.orcainspect.acereport.net/
Eldon Samp, Snohomish County Public Utility District, www.snopud.com

Homeowners and small business owners will learn about energy efficiency and healthy remodeling of mechanical features of your home or office. Looking behind the walls at insulation, duct systems, penetration sealing, and more can help you identify important cost-saving upgrades that can save energy and restore healthy living through better indoor air quality.

Greening up your Garden: Water, Water Everywhere

Jon Alexander, Sunshine Construction LLC, www.sunshineconstruction.biz
David C. Hilgers, ASLA, LEED-AP, Triad Associates, www.triadassociates.net

Rain gardens and green roofs help homeowners and small businesses landscape their properties while managing stormwater in environmentally-friendly ways – maximizing infiltration and adding a dramatic landscape element. Jon Alexander, an experienced green builder will discuss landscaping opportunities with green roofs, the components of a green roof, and what it is like to live with a green roof at home. David Hilgers will also help you to understand how new technologies can help keep stormwater on site, and will provide information on how to build a rain garden.

Greening the Economy – Green Jobs and New Markets

Ann Raab, GreenPod™ Development LLC, www.greenpoddevelopment.com
Barry Bettinger, Snoqualmie Gourmet Ice Cream, www.snoqualmiegourmet.com
Caldie Rogers, The greater Marysville Tulalip Chamber of Commerce,
www.marysvilletulalipchamber.com

How can you bring green to your local economy? These presenters will tell their stories on their successful endeavors to green their business plans. Plus, Caldie Rogers will demonstrate how the Marysville Tulalip Chamber of Commerce is working toward a sustainable future.
